RESEARCH INTERESTS	Video Analysis, Computer Vision, Deep Learning, Machine learning, and Reinforcement Learning.	
EDUCATION	Indraprastha Institute of Information Technology, Delhi (IIIT-Delhi)	
	PhD candidate, Computer Science and Engineering, CGPA: 8.14	2016–Present
	Thesis: Analyzing Day Long Egocentric Videos	
	Advisor: Dr. Chetan Arora	
	Indian Institute of Information Technology, Allahabad (IIIT, Allahabad)	
PUBLICATIONS	M.Tech., Information Technology, CGPA: 8.65	2012–2014
	Thesis: Human Action Recognition	
	Advisor: Dr. Anupam Agarwal	
	Mahakal Institute of Information Technology, Ujjain	
	B.Tech., Computer Science and Engineering, Percentage: 70	2007–2011
PUBLICATIONS	Project: Hotel Management website	
	Advisor: Pradeep Rupalia	
	Lokmanya Tilak Higher Secondary School, Ujjain	
	XII, PCM: 83.77	2007

	Sagar Verma, Pravin Nagar , and Chetan Arora. “Making third person techniques recognize first-person actions in egocentric videos” <i>25th IEEE International Conference on Image Processing (ICIP)</i> . 2018.	
	Pulkit Kumar, Pravin Nagar , Anubha Gupta and Chetan Arora. “U-Segnet: fully convolutional neural network based automated brain tissue segmentation tool” <i>25th IEEE International Conference on Image Processing (ICIP)</i> . 2018.	
PUBLICATIONS	Pravin Nagar , Anupam Agrawal. “Geometric invariant model based human action recognition” <i>9th International Conference on Industrial and Information Systems (ICIIS)</i> . 2014.	

WORK EXPERIENCE	PSIT Kanpur, India <i>Assistant Professor</i> Taught Artificial Intelligence, Software Project Management and E-Commerce.	Jul, 2014–Dec, 2015
TEACHING ASSISTANT	CSE507-Database System Implementation CSE201-Advance Programming CSE561-Probabilistic Graphical Models CSE543-Machine Learning CSE561-Probabilistic Graphical Models CSE642-Advanced Machine Learning CSE641-Deep Learning CSE562-Advanced Computer Vision	Winter 2016 Monsoon 2016 Winter 2017 Monsoon 2017 Winter 2019 Monsoon 2019 Winter 2020 Monsoon 2020
POSITIONS OF RESPONSIBILITY	Participated and Member of organizing committee for ‘Intelligent Interactive Technologies and Multimedia (IITM)’. System Administrator, CVML lab, IIIT-Delhi	Mar, 2013 Aug, 2018 - Present
RESEARCH PROJECTS	Realtime face recognition using Deep learning. <i>Adviser: Dr. Chetan Arora</i> We use a Deep Learning based architecture for face detection, and then small inception-based architecture is proposed for real-time face recognition. For training, we have collected the data of seven-person. Our model detects and recognizes faces in real-time on each frame of video. Smart Messenger. <i>Advisor: Dr. Saket Anand</i> In this project, we propose a smart messenger to classify emotions based on short text messages, thus setting the background color of the message to the color assigned to the particular emotion. The state-of-the-art accuracy on ISEAR dataset for five emotions classes is 64.47% from Microsoft research. We defeated their accuracy by two different deep learning models and got 82% accuracy. Geometric Invariant Human Action Recognition. <i>Advisor: Dr. Anupam Agarwal</i> We proposed a geometric invariant like rotation, scaling and transformation invariant action recognition system in this work. We have used R-transform, which is the extension of radon transform for feature extraction. We use Principal Component Analysis(PCA) and Linear Discriminant Analysis (LDA). We have reported 87% accuracy on the Weizmann dataset comprises 90 video sequences of 10 action classes. Face recognition using PCA, LDA, ANN, and RBFNN. <i>Advisor: Dr. Sudip Sanjal</i> We have used various naive methods to recognize faces and compare them. We have used Principal Component Analysis(PCA), Linear Discriminant Analysis(LDA), Artificial Neural Network(ANN), and Radial Basis Function Neural Network.	Jul, 2017 - Dec, 2017 Aug, 2016 - Jan, 2017 Jun, 2013 - May, 2014 Aug, 2013 - Jan, 2013
SKILLS	Programming Languages Python, Java, C, C++. Tools and Technologies PyTorch, Tensorflow, Matlab, Caffe, OpenCV, Pandas, SciPy, L ^A T _E X.
