

Pravin Nagar

A516, R&D block, IIIT Delhi
Near Govindpuri Metro, Okhla Phase III
New Delhi, Delhi, 110020

pravinn@iiitd.ac.in
Phone: +91-7275365698
Git: Pravin74

RESEARCH INTERESTS Video Analysis, Computer Vision, Deep Learning, Machine learning, and Reinforcement Learning.

EDUCATION **PhD, Computer Science and Engineering, January 2016 - Present, CGPA: 8.14.**
 Indraprastha Institute of Information Technology, Delhi
 Thesis: Analyzing Day Long Egocentric Videos
 Advisor: Dr. Chetan Arora

Indian Institute of Information Technology, Allahabad
 M.Tech., Information Technology, 2014, **CGPA: 8.65.**
 Thesis: Human Action Recognition
 Advisor: Prof Anupam Agarwal

Mahakal Institute of Information Technology, Ujjain
 B.Tech., Computer Science and Engineering, 2011, **Percentage: 70.**
 Thesis: Hotel Management website
 Advisor: Prof. Pradeep Rupalia

PUBLICATIONS Pravin Nagar, Anuj Rathore, C. V. Jawahar, and Chetan Arora. "Generating Personalized Summaries of Day Long Egocentric Videos" Submitted in PAMI 2020.

 Pravin Nagar, Mansi Khemka, and Chetan Arora. "Concept Drift Detection for Multivariate Data Streams and Temporal Segmentation of Daylong Egocentric Videos" Accepted in *ACM International Conference on Multimedia, 2020*.

 Anuj Rathore*, Pravin Nagar*, Chetan Arora, and C.V. Jawahar. "Generating One Minute Summaries of Day Long Egocentric Videos" Accepted in *ACM International Conference on Multimedia, 2019*.

 Pulkit Kumar, Pravin Nagar, Anubha Gupta and Chetan Arora. "U-SEGNET: Fully convolutional neural network based automated brain tissue segmentation tool" Accepted in *International Conference on Image Processing, 2018*.

 Pravin Nagar, Anupam Agrawal. "Geometric invariant model based human action recognition" Accepted in *International Conference on Industrial and Information Systems, 2014*.

WORK EXPERIENCE **PSIT Kanpur, India**
 Assistant Professor **July, 14 - December, 15**
 Taught Artificial Intelligence, Software Project Management and E-Commerce.

TEACHING EXPERIENCE	Teaching Assistant	
	CSE507-Database System Implementation	Winter 2016
	CSE201-Advance Programming	Summer 2016
	CSE561-Probabilistic Graphical Models	Winter 2017
	CSE453-Machine Learning	Summer 2017
	CSE642-Advanced Machine Learning	Summer 2019
POSITIONS OF RESPONSIBILITY	Participated and Member of organizing committee for ‘Intelligent Interactive Technologies and Multimedia (IITM)’.	March 2013
	System Administrator, CVML lab, IIITD	August, 2018 - Present
RESEARCH PROJECTS	Realtime face recognition using Deep learning.	
	<i>Adviser: Dr. Chetan Arora</i>	July,17 - December,17
	We use a Deep Learning based architecture for face detection and then a small inception based architecture is proposed for real time face recognition. For training we have collected the data of seven person. Our model detects and recognizes face on real time on each frame of video.	
	Smart Messenger.	
	<i>Advisor: Dr. Saket Anand</i>	August,16 - January,17
	In this work we propose a smart messenger to classify emotions on the basis of short text messages, thus setting background color of the message to the color assigned to the particular emotion. The state-of-the-art accuracy on ISEAR dataset for five emotions classes is 64.47% from Microsoft research. We defeat their accuracy by two different deep learning models and got 82% accuracy.	
	Geometric Invariant Human Action Recognition.	
	<i>Advisor: Dr. Anupam Agarwal</i>	June,13 - May,14
	Proposed a geometric invariant like rotation, scaling and transformation invariant action recognition system. We have used R-transform which is the extension of radon transform for feature extraction. We use Principal Component Analysis(PCA) and Linear Discriminant Analysis (LDA).We have reported 87% accuracy on Weizmann dataset comprises 90 video sequences of 10 action classes.	
	Face recognition using PCA, LDA, ANN, and RBFNN.	
	<i>Advisor: Dr. Sudip Sanjal</i>	August,13 - January,13
	We have used various naive methods to recognise faces and compare them. We have used Principal Component Analysis(PCA), Linear Discriminant Analysis(LDA), Artificial Neural Network(ANN) and Radial Basis Function Neural Network.	
SKILLS	Programming Languages	
	Python, Java, C, C++.	
	Tools and Technologies	
	PyTorch, Caffe, Tensorflow, Matlab, Cuda, OpenCV, SciPy, L ^A T _E X.
