RESEARCH INTERESTS	Video Analysis, Computer Vision, Deep Learning, Machine learning, and Reinforcement Learning.	
EDUCATION	Indraprastha Institute of Information Technology, Delhi (IIIT-Delhi)	
	PhD candidate, Computer Science and Engineering, CGPA: 8.14	2016–Present
	Thesis: Analyzing Day Long Egocentric Videos	
	Advisor: Dr. Chetan Arora	
	Indian Institute of Information Technology, Allahabad (IIIT, Allahabad)	
PUBLICATIONS	M.Tech., Information Technology, CGPA: 8.65	2012–2014
	Thesis: Human Action Recognition	
	Advisor: Dr. Anupam Agarwal	
	Mahakal Institute of Information Technology, Ujjain	
	B.Tech., Computer Science and Engineering, Percentage: 70	2007–2011
PUBLICATIONS	Project: Hotel Management website	
	Advisor: Pradeep Rupalia	
	Lokmanya Tilak Higher Secondary School, Ujjain	
	XII, PCM: 83.77	2007
	Pravin Nagar , Subhabrata Dutta, Tanmoy Chakraborty, and Chetan Arora. “Self-supervised Recovery of Activity Patterns from Weeks-long Egocentric Photostreams” submitted in AAAI 2022.

	Sagar Verma, Pravin Nagar , and Chetan Arora. “Making third person techniques recognize first-person actions in egocentric videos” <i>25th IEEE International Conference on Image Processing (ICIP)</i> , 2018.	
	Pulkit Kumar, Pravin Nagar , Anubha Gupta and Chetan Arora. “U-Segnet: fully convolutional neural network based automated brain tissue segmentation tool” <i>25th IEEE International Conference on Image Processing (ICIP)</i> , 2018.	
PUBLICATIONS	Pravin Nagar , Anupam Agrawal. “Geometric invariant model based human action recognition” <i>9th International Conference on Industrial and Information Systems (ICIIS)</i> , 2014.	

WORK EXPERIENCE	PSIT Kanpur, India <i>Assistant Professor</i> Taught Artificial Intelligence, Software Project Management and E-Commerce.	Jul, 2014–Dec, 2015
TEACHING ASSISTANT	CSE507-Database System Implementation CSE201-Advance Programming CSE561-Probabilistic Graphical Models CSE543-Machine Learning CSE561-Probabilistic Graphical Models CSE642-Advanced Machine Learning CSE641-Deep Learning CSE562-Advanced Computer Vision	Winter 2016 Monsoon 2016 Winter 2017 Monsoon 2017 Winter 2019 Monsoon 2019 Winter 2020 Monsoon 2020
POSITIONS OF RESPONSIBILITY	Participated and Member of organizing committee for ‘Intelligent Interactive Technologies and Multimedia (IITM)’. System Administrator, CVML lab, IIIT-Delhi	Mar, 2013 Aug, 2018 - Present
RESEARCH PROJECTS	Real-Time Face Recognition Using Deep Learning <i>Adviser: Dr. Chetan Arora</i> In this project, we use a pre-trained deep network for face detection, and then a small multi-resolution network (inspired by the inception network) is proposed for real-time face recognition. For training, we have collected the data of seven-person. Our model robustly detects and recognizes faces in real-time for each frame of video. Smart Messenger <i>Adviser: Dr. Saket Anand</i> We propose a smart messenger to classify emotions based on short text messages. We use color coding for the messages to depict the emotion being conveyed in the message. Microsoft research demonstrates state-of-the-art performance (64.47% accuracy) on the ISEAR dataset for five emotions classes. The proposed deep learning model demonstrates significant improvement (82% accuracy) with respect to the state-of-the-art. Face Recognition Using PCA, LDA, ANN, and RBFNN <i>Adviser: Dr. Sudip Sanjal</i> We use various naive methods; namely, Principal Component Analysis (PCA), Linear Discriminant Analysis (LDA), Artificial Neural Network (ANN), and Radial Basis Function Neural Network, to recognize faces and compare them.	Jul, 2017 - Dec, 2017 Aug, 2016 - Jan, 2017 Aug, 2013 - Jan, 2013
SKILLS	Programming Languages Python, Java, C, C++. Tools and Technologies PyTorch, Tensorflow, Matlab, Caffe, OpenCV, Pandas, SciPy.
